This is to acknowledge receipt of your email to our PSC Website Comments.

The Public Service Commission does not have jurisdiction over Tri County Electric Cooperative. South Carolina Code Section 58-3-140 vests the Commission with power and jurisdiction to regulate the rates and service of public utilities in the State. South Carolina Code Section 58-27-10 expressly excludes electric cooperatives from the definition of electric utilities.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling

Subject: What are you doing?

Good Morning Mr Elam,

I am writing to you as a concerned and angry tax payer that is getting angrier by the minute by the continued ineptitude by the PSC, you are my representative in my district and you continue to fail us.

SCE&G fiasco and the PSC complicit partnership with allowing SCE&G to RIP OFF the taxpayers is mind boggling. When I thought the PSC has reached the bottom of the barrel I read what you and the rest of the commission did with Tri-County Electric. What industry in this country is guaranteed a 10.5% profit? What industry is allowed to NOT PERFORM, RIPP OF TAXPAYERS and let the executives continue to bonus at the expense of high energy bills with no regard or accountability to performance?

As a recently retired CEO, my team worked their tails off to generate a profit through hard work and cost control. It's obvious PSC doesn't understand this and continues to reward poor performance and behavior at the expense of the citizens.

How can you and the rest of the commissioners explain what happened at SCE&G and now Tri-County Electric that had your stamp of approval?

You and the rest of the PSC has made this state a national laughing stock with the outrageous handling of the cost of power, allowing these companies to rip off taxpayers.

Every one of you need to resign.

Regards,
Albert S. Bueno
